When you have made your selection, click the <u>Select</u> button.

3. After pressing OK, it will drop the class and the course will no longer be listed in your schedule. Be VERY sure when dropping a course that you wish to do so, as if you drop a course in error and the course now has a waitlist, you will lose your spot and run a good chance of not being able to get back into that section. If there is a waitlist and you drop your spot and then wish to add it back, you will have to be added to the end of the waitlist
